3. After installation of the unit(s), FRECC guarantees a minimum of ten (10) hours off-peak storage availability per day during the Seven (7) month heating season of October through April for ten (10) years from the date of installation.
4. FRECC further guarantees, subject to the approval of the Public Service Commission, that the rate for energy used by off-peak ETS unit(s) shall be discounted no less than forty percent (40%) below the lowest cost rate block for regular residential or small commercial services, as appropriate, and as modified and approved from time to time by the Public Service Commission, for ten (10) years from date of installation.
5. FRECC fully warrants parts and service on ETS unit(s) purchased from FRECC for three (3) years from date of installation.

Service availability on the remaining seven (7) years of the contract will be guaranteed by FRECC at the Member's expense.

FRECC will continue to service ETS unit(s) beyond the initial ten (10) year period only if such service is not available in the local marketplace.

6. Installed ETS unit(s) are considered permanent installations. Relocation of installed unit(s) inside or outside the home will void the free parts and service portion of the abovementioned warranty, unless the reinstallation is done by an ETS certified installer. It is recommended not to move heaters unless absolutely necessary.
7. Member agrees to participate in any electronic load control program initiated by FRECC that insures a minimum of ten (10) hours per day charging time for ETS unit(s).
8. The rate discount offered herein may be transferred or assigned to another member of FRECC who resides in, rents, leases, or purchases a residence equipped with approved ETS unit(s) providing such member abides by the terms of this contract and accompanying tariff.
