The Cooperative shall have the right; but does not assume the duty, to inspect the member's entrance equipment installation at any reasonable time. The Cooperative may refuse to commence or continue service whenever entrance equipment installation could subject any person to imminent harm or result in substantial damage to the property of the Cooperative or others; but no inspection by the Cooperative, nor the failure by it to identify deficiencies in the member's entrance equipment installation, shall render the Cooperative liable or responsible for any loss or damage resulting from defects in installation, wiring, or equipment. When a dangerous condition is found to exist on the applicant/member's premises, the service shall be refused or discontinued without notice, provided that the Cooperative informs the applicant/member of the reasons for the refusal or discontinuance and the corrective action to be taken by the applicant/member before service can be connected or restored.

Electric service must not be used in such a manner as to cause unusual fluctuations or disturbances to the Cooperative's system, and the Cooperative may require the member, at the member's sole expense, to install suitable apparatus which may reasonably limit or eliminate such fluctuations or disturbances. In any event, the member will have complete responsibility for all construction, operation, and maintenance beyond the meter and will hold the Cooperative harmless against liability for injury or damages resulting in any manner from construction, location, operation, or maintenance of the member's equipment or facilities.

Extensions greater than 150 feet from the nearest facility and up to 300 feet shall be made provided the member shall pay the utility a "customer advance for construction" of \$50 in addition to any other charges required by the utility for all customers. This advance shall be refunded at the end of one year if the service to the location continues for that length of time. (T)

Extensions greater than 300 feet and less than 1,000 feet from the nearest facility, the utility may charge an advance equal to the reasonable cost incurred by it for that portion of the service beyond 300 feet plus \$50. This advance shall be refunded to the customer over a four-year period in equal amounts for each year the service is continued. If the service is discontinued for a period of 60 days, or should the mobile home, etc. be removed and another not take its place within 60 days, or be replaced by a permanent structure, the remainder of the advance shall be forfeited. No refunds shall be made to any customer who did not make the advance originally. (T)

Each month, the Cooperative shall render an electric service statement to each member for approximately thirty days of service. Final bills may be rendered as soon as possible after the service is disconnected. The member shall pay the net amount of the bill within 12 days of the date the bill was rendered. If payment is not received by the Cooperative within 12 days of the date the bill was rendered, the gross amount (as defined in the Rate Schedule) shall be due. The late payment penalty shall only be assessed one time for any bill rendered for services. Failure to receive the bill will not release the member from payment obligation. (T)

Delinquent bill notices are to be sent out two (2) days after the due date of the original bill each month. Field collection or termination for non-payment shall be 10 days after mailing of the delinquent notice and at least twenty-seven days after the mailing of the original bill.

A reminder letter or invoice statement will be issued 15 days after the final bill is rendered to unpaid accounts of disconnected consumers.

Periodically, all delinquent accounts are to be turned over to an attorney or competent collecting agency for further proceedings, provided such amount exceeds the membership fee and consumer deposit.

A \$25.00 fee is to be collected when checks are returned from bank marked "Insufficient Funds." The drawer of said check is to be notified by letter and his/her service placed on the cut-off list, along with other delinquent accounts and handled in the same manner as outlined above. (T)

All consumers are to be members of the Cooperative. Cases of failure to pay membership fee shall be treated in the same manner as outlined above on delinquent accounts.

21. DEPOSITS, PAYMENT GUARANTEES - The Cooperative may require a minimum cash deposit or other suitable guaranty to secure payment of bills except for members qualifying for service reconnection pursuant to 807 KAR 5:006, Section 16, Winter Hardship Reconnection. In determining whether a deposit will be required or waived the following criteria will be considered:

- A. If an applicant has shown a satisfactory prior payment history with the Cooperative of less than three (3) delinquents in a twenty four (24) month period, there will not be a deposit required.

If the deposit is held longer than twenty four (24) months, the deposit will be recalculated at the member's request, based on the member's actual usage. If the deposit on account differs from the recalculated amount by more than \$10.00 for a residential member or ten percent for a non-residential member, the Cooperative may collect any underpayment and shall refund any overpayment by check or credit to the member's bill. No refund will be made if the member's bill is delinquent at the time of the recalculation. (D)

RULES AND REGULATIONS

If the member fails to pay their bill as rendered under the budget plan, the Cooperative reserves the right to revoke the plan, restore the member to regular billing, and require immediate payment of any deficiency. Failure to receive a bill in no way exempts the member from the provisions of these terms and conditions.

The member's bill will be due within twelve days from the date of the bill and the due date will be clearly indicated on the statement.

Under the levelized-billing plan, the member's last eleven month's actual usage, plus the current month's usage are totaled and divided by twelve. To this amount is added 1/12th of any account arrearage to date and any current month taxes owed (1/12th of account overages is deducted). The resulting amount is rounded to the nearest whole dollar. This is the amount billed as the current month's levelized budget amount.

The amount is recalculated monthly and will fluctuate based upon the member's changing usage. The account will self-adjust to a near-current status during the budget year, providing there are no abnormal deviations in the member's usage. No other adjustments are made to the member's account as long as the member meets the payment terms of the budget plan. Upon cancelling the budget billing, either by the member or the Cooperative, the total account balance owed and outstanding, if any, is then due.

RULES AND REGULATIONS

2. If the deviation in usage for any account listed on the exception report is attributed to unique circumstances such as unusual weather conditions, which would affect all members, no further review will be done.
3. If the deviation cannot be readily attributed to a common cause, the Cooperative will further investigate the account usage by comparing the last twelve month's usage to the same months of the previous year.
4. If the cause for the usage deviation cannot be determined from analysis of the member's meter reading and billing records, the Cooperative may dispatch service personnel to verify the meter reading, check the service installation, or to make personal contact with the member to inquire about the unexplained usage deviation. The Cooperative will contact the member by telephone or in writing about the usage deviation if the service personnel cannot determine a cause.
5. Where the deviation is not otherwise explained, the Cooperative will test the member's meter to determine whether it shows an average error greater than two percent (2%) fast or slow. The Cooperative will notify the member of the investigation and results, and will refund or bill for any errors in accordance with 807 KAR 5:006, Section 11.

In addition to the monthly monitoring, the Cooperative will immediately investigate usage deviations brought to its attention as a result of its on-going meter reading and billing processes or member inquiry.

34. MEMBER PURCHASE OF POWER – All purchased electric power used on the premises of the member shall be supplied exclusively by the Cooperative.
